

**Pemigewasset Chapter
Trout Unlimited
June 2014 Newsletter**

June Meeting – Tuesday, June 17

7pm at The Common Man Inn, Rt. 3, Plymouth NH

Speaker: Brigid O'Donnell, Assistant Professor of Developmental Biology at Plymouth State University. She is going to cover mayflies and other semi aquatic insects important to trout. It should be a great presentation as her current research focuses on the developmental biology of the large bodied and widespread mayfly, **Hexagenia Limbata**.

Welcome New Members joining (or rejoining) since our last newsletter:

Barbara Givot (Sandwich)

Jeff Park (Campton)

Gerard Orgler (Sandwich)

Our May Speakers – NH Fish & Game Biologists, Ben Nugent and Dianne Timmins, gave us an update on results of 2013 stream surveys and on the Newfound River. Dianne reported that the data loggers we set last year showed what we expected – Newfound is HOT (80+) in the summer. Ben said that we will be doing more stream surveys in the Pemi watershed again this year. We may do some surveys along the Beebe River – stay tuned - dates probably mid July.

Casting for Kirby! – Pemi TU members Roy Coughlin, Joyce Hackett, Steve Hackett, Ray Kucharski, Jeff Landi, Phil McCuin, and Dave Pushee volunteered at the Waterville Valley youth fishing derby on May 24th. We received a nice thank you note from WV Rec Dept.

Trout Unlimited Pemi-Chapter,
Your continued support is
unmatched. We could not
hold this event without
all of you. We appreciate
everything you all do for
the derby.
With Sincerest Thanks!

Dave Naylor
WV DPS

Toni
WVRO

The overall winner caught a monster 18 ¾ “ Rainbow – half his size. There were plenty of smiles to be seen all around.

FUNDamentals of Flyfishing – at Waterville Valley is a 4 day class held on consecutive Saturdays by Pemi TU volunteers. The first 2 classes have gone well. The June 14 class will be about gear and fly-tying, and the June 21 class will be casting and fishing.

Volunteers still needed – June 14th for the youth fishing derby being run by the Lincoln-Woodstock Recreation Department. We currently have 2 volunteers – need 2 more. If you can help, please email Pemitu@gmail.com ASAP. Volunteers should plan to arrive at the Waterest Campground in Woodstock, NH at 9:15 am. We will assist with hook removal and measuring and recording fish caught by the participants.

Hats – Steve Hackett tells us that the order for additional Pemi TU hats has arrived. I’m sure he will have some for sale (\$15 each) at the June meeting.
